

## WELCOME LOHIKANITES!

We're all excited for summer 2009! It makes sense. **There's more fun at camp in 54 straight days than anywhere else on the planet! And FUN is just the beginning!**

Camp Lohikan is a special place filled with adventure, friendships, achievements, and most of all FUN! Campers are surrounded in an active, hands-on environment programmed with activities designed to challenge the camper and provide almost unlimited possibilities for success.

At camp we live together, play, work, and learn from each other all day long. For kids, it's a chance to practice what it's like to be a grownup - cooperating, compromising, taking responsibility for decisions, respecting others - all positive social behaviors modeled by staff who care.

Camp is a break from television, video games, text messaging, and the rigors of hectic days and a busy school year. At home, many of us are over scheduled! At camp, there's time. Time for friendship, laughter, appreciating nature and the outdoors as well as time for experiencing every art, sports and adventure activity you can imagine.

At camp kids don't communicate with cell phones or through cyberspace, they communicate face to face.

Camp is a personal experience. When camp is over, campers come away with an experience that has boosted their self confidence, increased their independence, strengthened their social skills, and filled their summer with fun in the process. Camp is a great experience and we're honored and happy to share it with your child this summer.
